

# LAUNCHING NEW FACES

## Producer/ director and acting school join hands to give opportunities to students

**T**he ITA School of Performing Arts (ITASPA) has entered a tie-up with producer/director, Rajan Shahi, the maker of several TV serials, who has also launched faces like Hina Khan, Karan

Mehra, Angad Hasija, Kinshuk Mahajan, Parul Chauhan and several other TV actors.

Shahi, who is currently busy casting faces for his upcoming serials, has asked the school to create a special

two-month crash course to train boys and girls, who would be given preference in his productions.

Admissions are now on for acting aspirants. Says Shahi, "I have implicit trust in ITASPA's expertise for training talent. The students completing this course would be dependable and worthy to earn a break in our serials."

ITASPA strives hard to provide possible placement opportunities to its students. Recently, 10 of its wards got a break in a TV series. An ex-student Mallika Poswal says, "ITASPA has made a complete actor out of me and didn't just leave it at that. Instead, Shashi Ranjan (CMD, ITASPA) has helped me and other students get a break in the TV industry as well."

Adds, Ranjan, "We don't wash our hands off the students once their training is over. We help them get roles in the industry. Several tie-ups with different productions are in the offing, besides the one with Shahi."
