

Rajan Shahi's next on Colors

Rajan Shahi, whose *Yeh Ristha Kya Kehlata Hai* is going strong on Star Plus, is all set to start another serial, this time on rival channel Colors. Tentatively titled *Havan*, the serial has Shubhangi Atre playing the lead protagonist while Kunal Verma, who was last seen as the main lead in *Tujh Sang Preet Lagayi Sajna*, will be her love interest. Another new girl is also being groomed for an important role. Set in a joint family, the serial dwells on inter-personal relationships and is said to have a mild religious flavour. Rajan had previously made *Mata Pitah Ke Charano Mein Swarg* for the same channel.
